

IGNITING A SPIRIT OF COMMUNITY & FAITH

Notre Dame-Cathedral Latin School is undertaking its first-ever comprehensive capital campaign. Phase I addresses the most pressing needs as identified during the past two years through extensive community dialogue. Successful completion of this campaign will empower our students to use their talents and gifts to make a Christian impact on an increasingly diverse world. It is with hope and confidence that we invite you to join with us in “igniting a spirit of community and faith” at NDCL.

Athletic Center

\$2,000,000

To accommodate the present and increased demands of NDCL's growing extracurricular programs, two projects creatively combine to provide 12,200 square feet of “in demand” floor space. This new construction will create an indoor athletic facility to replace practice space presently utilized in the auxiliary gym and other parts of the school building. Flexible and open space will be available for physical education classes, wrestling, junior varsity and freshman sports, marching band and cheerleading, while also providing additional meeting space.

Endowment Funding

\$500,000

Endowment is the lifeblood of Catholic schools today — and into the future. It is imperative to strengthen our scholarship endowment for the sake of educating talented and deserving young men and women in the years ahead. NDCL needs to continually build upon its \$8.3 million endowment. In this way, parents seeking a Catholic education for their children can benefit from available scholarships and/or financial assistance.

Dedicated Performing Arts

\$450,000

By remodeling the current auxiliary gym, NDCL will create a dedicated and sizable space to augment the performing arts programs and student assemblies. Comfortable seating for performances and improved sound and ventilation systems will enhance students' theater and music productions.

Lights and Drainage at Lion Stadium

\$450,000

With the addition of outdoor lighting at Lion Stadium more spectators will have the opportunity to support our students at home athletic events “under the lights!” This priority will also resolve current drainage issues by improving the flow of water around the perimeter of the track and field areas.

Tennis Courts

\$200,000

Six new tennis courts will provide an on-campus practice and competitive venue for our four Lion tennis teams and physical education classes. They will also attract future students and provide the opportunity for NDCL to host guests on campus.

Science & Technology Equipment

\$150,000

Specialized science laboratory equipment for student use in collecting and analyzing scientific data in labs or on NDCL's campus is the focus of this priority. Laptop computers to assist faculty members in maximizing the school's wireless network capabilities and related teaching devices are also included.

Campaign Costs

\$250,000

This expense covers capital campaign counsel, materials and related costs to support the direction and success of our campaign.

TOTAL:

\$4,000,000
